Aug. 19, 1890

Dear Dr. Watson:

The probable income of the Herbarium for the ensuing academic year is six thousand dollars (\$6000), including the gifts for immediate use. Your own salary being placed at two thousand dollars, how do you advise using the remaining four thousand? I should like to get action upon this subject at the meeting of the Corporation on September 23.

Very truly yours,

Dr. Simeon Watson.
